

Hello Baseball Families,

SafeSplash Swim School is opening in Sterling in the Towncenter Plaza on March 21<sup>st</sup>. We teach swim lessons to infants, toddlers, kids and even adults. We even have a year around Developmental Swim Team called Wave as well as a water aerobics program. There is something for everyone. Right now, we are having a grand opening special which is **20% off classes for March, April, and May**. We are also proud to be a sponsor of Lower Loudoun Little League (LLLL) and can't wait to meet our team and be a part of this awesome association. Both of my kids have played for LLLL for years and we love this organization, so I am so excited to be a sponsor as well.

For those with high school and college students we are also hiring for lifeguards and swim instructors. With competitive pay, bonus pay, flexible work schedules, and teaching kids to swim in warm water year-round, what could be a more rewarding part time job?

For those interested in learning more, below is a simple link to the swim school, which can even allow you to register for classes through the customer portal. Furthermore, there is a second link which is a level finder to help assess what level your child might be ready for. Please reach out to me directly if there are any questions. I am available and always ready to help. We are so excited to open the Swim School and start swimming! Let's have an awesome spring season and Go Little League!
